 Long wooden handle tools

 Product reference
 3083 CM

Oscillating Hoe with Handle / 3083 CM

Brand

Bellota

EAN code

8414299609998

Use

Cuts shallow roots in loose soil. Works in both directions: pushing and pulling.

Bullet points

Take care of your plants and vegetable garden. It won't let you down; the head is made of tempered steel for increased service life. It will make it easy to remove shallow roots and weeds in loose soil, and also allows working in two directions: pushing and pulling. 1500mm handle with areas of different thicknesses for more comfortably gripping the tool. Soft and resistant finishes, PEFC-certified wood.

Description

Stirrup hoe for removing shallow roots, for loosening soil with back-and-forth movements. It works in both directions: it pushes and pulls and is very lightweight. With a long PEFC-certified wooden handle that is ergonomic for a good grip.
