Suction cups

Product reference
SUCA40SP

40 kg simple aluminium suction
cup / SUCA40SP

Brand

Bellota

EAN code

8414299699425

Use

For handling heavy materials or large format tiles regardless of surface finish.

Bullet points

For handling heavy materials, large ceramic tiles and glass panes.

Easy handling and maximum support, with 40 kg load capacity. (simple), 70 Kg (double) and 100 Kg (triple).

With white rubber to avoid marking the parts. For smooth surface finishes

Description

Suction cups with a resistant aluminium body and ergonomic handle for handling large format and/or heavier ceramic tiles. For easy positioning and transport. Suction cup diameter of 120 mm (single and double version) and 115 mm (triple version), to ensure that parts are held in place, with a capacity to hold 40 kg (simple), 70 Kg (double) and 100 Kg (triple). With white rubber to avoid marking the parts. For handling large format tiles up to 100 kg, glass panes and other materials with smooth surfaces.
