

Aluminium Soakers

Kytun Aluminium Soakers are a lightweight and durable alternative to lead. They are used when forming a pitched roof against a wall.

Pre-fabricated to a 90-degree angle, soakers are placed between successive courses of slates or tiles to establish a waterproof joint.

We also provide Kytun Continuous Aluminium Soakers and lead-free flashing, both textured and smooth.

Features & Benefits

- Very simple and quick to install
- Made from high grade polyester powder coated or mill finish aluminium
- 100% Fully Recyclable
- Complies with BS 5534 requirements and NHBC guidelines
- Clean aesthetic lines for sharp finish
- More cost effective

Technical Details

Product Code	C06
Material	Polyester Coated Aluminium/ Mill Finish Aluminium
Sizes	See overleaf for sizes and pack quantities.

Colour options

Blue/Black Black Milled

Quality Standards & Certification
