

BOTTLE DEPOSIT SYSTEM AT KVA

HOW DOES THIS WORK?

For First time Buyers:

- Please note that a one-time bottle deposit fee is required for first-time purchases of Hobbyweld gas cylinders. This deposit secures your ownership of the cylinder and enables future refills.
- For all subsequent transactions, you will only be required to pay the refill fee applicable to your specific cylinder type—no additional deposit will be necessary, provided you return your original Hobbyweld cylinder.

The Terms:

There is no limit to how long you can keep your cylinder & you can exchange it as often or as little as you like.

If you wish to return the cylinder, you can bring it back to us where you will then be able to collect the return deposit value owed to you.

Please note that all cylinders are collection only.

Our Range:

HobbyBrew
Oxygen
Argon

Nitrogen
Helium
Carbon Dioxide

Acetylene
MIG Light Steel
MIG Heavy Steel
